Mr. Joseph Eckstein
Chevra Dor Yeshurim
P.O. Box 51
Brooklyn, New York 11211

Dear Mr. Eckstein:

I read the pamphlet of your voluntary organization, the aims and concerns of your members and the leading Rabbis in your communities, and I must congratulate every one of you.

I wholeheartedly support the efforts of Dor Yeshurim to disseminate the present knowledge of Jewish genetic diseases. The Jewish orthodox community must know that some diseases, with their disastrous consequences, are preventable.

I urge my friends, parents and patients to have the blood test performed before the shiduh so that the new generation will be healthier and happier in fulfilling their lives.

Arno Buiumsohn, M.D., F.A.A.P.
